**VERIFICATION PROCEDURE - CURRENTLY VERIFIED**

*This page last reviewed January 24, 2008*

**Currently Verified**

The following information is provided as a summary of verified diesel emission control strategies. Additional requirements specific to engine compatibility are provided in the Executive Order. The factors outlined in the Executive Order are legal requirements of each verification; therefore, these conditions must be met before determining if a particular device is applicable to the end-users type of engine. The Air Resources Board recommends that you contact the manufacturer, or their authorized distributor, prior to making any purchasing decision. Please click on the manufacturer link for additional information.

Plus (+) designates these systems as compliant with 2009 N02 requirements.

PM Level	Product Name	PLUS	Technology Type	PM Reduction	NOx Reduction	Applicability
LEVEL 3	<a href="#">Cleaire Longview</a>		Lean NOx Catalyst and DPF	85%	25%	1993-2003 model year on-road; CARB diesel. .
